

Processing  
overhead

A graph with 'Processing overhead' on the vertical y-axis and 'Query workload' on the horizontal x-axis. The y-axis is represented by a vertical line with an upward-pointing arrow at the top. The x-axis is represented by a horizontal line. Two points are marked on the x-axis: 'VWAP' on the left and 'SSB' on the right. The origin is at the bottom-left corner where the two axes meet.

VWAP

SSB
